PROJECT DOCUMENTATION

ONLINE CONSULTATION

***DEVELOPED BY*:**

1. Ahmed Raza
2. Ali Haider
3. Abdullah Wahid
4. Aqib

Acknowledgement

The success and final outcome of this project required a lot of guidance and assistance from many people and me and my partner extremely privileged to have got this all along the completion of our project. All we have done only due to such supervision and assistance and we would not forget to thank them.

We extremely thankful to our teacher…
Sir Sameer Misbah for providing us an opportunity to do the project Work and giving us all support and guidance which made us complete the project duly.

I am extremely thankful to our all group member **Ahmed Raza, Ali Haider** & **Abdullah Wahid** & **Aqib** for giving such a nice support in completion of project.

Last but not the least we will like to express our gratitude to our friend and respondents for the support.

Certificate Of Completion

This certificate is awarded to **Ahmed Raza**, **Abdullah, Ali Haider** & **Aqib** for successfully completing the project.

Thank you

Project starting date: 12/01/2021
Project submission date:14/01/2021

TOPIC OF THE PROJECT

ONLINE CONSULTATION

INTRODUCTION OF THE PROJECT

We offer online consultation to Patients interested in going for treatment or just to get an idea of our treatment. Please feel free to provide us with the information as requested in the form below, you are under no obligation to get treatment from this system after sharing this information.

REQUIREMENT

Online Consultation

RECOMMENDED SOLUTION FOR ALL DISEASE

Abstract
It might have happened so many times that you or someone yours need doctors help immediately, but they are not available due to some reason. This system provides medical suggestions for patients on any time either by go treatment or by consultation through online. So we hereby make a web application for patients and from that they can easily undergo treatment. The user who needs for help at their home can consult online easily. It also saves the time of the user. From this the medical suggestions get more customers from online and they earn a lot.

Objectives

We offer online consultation to Patients interested in going for treatment or just to get an idea of our treatment. Please feel free to provide us with the information as requested in the form below, you are under no obligation to get treatment from this system after sharing this information.

System Specifications

Hardware Requirements:-

Software Requirements: –

Front-End : HTML, CSS, and JS

Back-End : PHP, MYSQL

Tool : Xamp

EXISTING SYSTEM:
It is impossible for many persons to visit doctor at any time. In that case the web application we developed may help peoples to seek doctor's help at required time, getting appointment from doctor and paying the bill online. It is not necessary for all the patients to take Ayurveda medicines; they can also get the Ayurveda treatment from the developing Web Application.

PROPOSED SYSTEM:

- This system helps the patient to get solutions whenever required.
- Patient does not have to wait in queue to visit the doctor.
- This system saves time of both doctor and patient.
- The information that you provide below will help us understand the specifics of your physical, mental and emotional state and condition, so that we can provide you with a personalized healthcare solution best suited to your health needs.
- **System Modules:**
  - ADMIN
  - USER
  -

ADMIN

- Login
- Post Suggestion Details
- Post Treatment Details
- View Complete History of Disease
-

USER

- Register
- Login
- Post Personal Details
- Post Health Details
- Post Complete History of disease
- Post Mental condition
- Post Old Treatment History
- Get Solutions

Module Description

Login Module

The main activities in the application are the user login page for user. The other modules are followed by this login page. This module records only user and password of the user.

Registration Module

Another main function of our proposed system is registration, in order to register with the unique application details such as name; password, email, place and time are required.

ADMIN

- **Post suggestion Details**
  Admin can post solutions for patient disease.

- **Post Treatment Details**

Admin can only post treatment details. Like

- Ayurveda Treatment
- **View complete history of disease Details**
  Admin can only view history of disease details. Like

- Patient mental condition
- Symptoms of disease
- Digestive system

USER

- **Post Personal Details**
  User can post personal details like Name, Gender, and Age and so on.

- **Post Old Treatment Details**
  User can Post treatment details. Like

- What type of medicines
- **Post Health Details**
  User can post Health details. Like

- Name your disease
- Symptoms of health.

DESIGN AND IMPLEMENTATION OF ONLINE CONSULTATION

Using the code:

1. Attach the database in your "my Sql ".

2. Run the application on Visual Studio as web site.

3. Locate the database.

Web pages Details:

- Registration
- login
- Admin dashboard
- User profile dashboard
- View User detail.
